**The Alliance for Longevity Initiatives Announces Appointment
of Paul Cherukuri, Ph.D. to Board of Directors**

Washington, DC – February 11, 2022 – The Alliance for Longevity Initiatives (A4LI) today announced the appointment of Paul Cherukuri to the A4LI Board of Directors. Dr. Cherukuri joined as the tenth member of the Board in November 2021.

“We are pleased to welcome Dr. Cherukuri to the Board,” said A4LI President and Founder Dylan Livingston. “The longevity sector is poised to have an immensely positive impact on the lives of Americans and on society as a whole. Dr. Cherukuri’s experience and expertise will be instrumental as we work with policymakers to pave the way for this innovative science.”

Dr. Cherukuri is the Executive Director of the Institute of Biosciences and Bioengineering at Rice University, where he provides leadership for the university’s only interdisciplinary institute dedicated to fostering bio-related research innovation among 150 faculty members that span the Schools of Natural Sciences and Engineering. He earned his B.S. in Physics from the University of Kentucky and Ph.D. in Chemistry at Rice University under Nobel Laureate Richard E. Smalley. Before returning to Rice, Cherukuri was a senior scientist at Sanofi where he managed the R&D of several brand-name drug products and devices. Prior to Sanofi, he was a Visiting Scholar at Harvard University with Professor George Whitesides and a Research Assistant Professor of Experimental Therapeutics at the University of Texas MD Anderson Cancer Center.

About The Alliance for Longevity Initiatives

The Alliance for Longevity Initiatives is the first and only 501(c)(4) nonprofit organization founded with the goal of creating social and political action around the issues of combating age-related chronic conditions and increasing our number of healthy, disease-free years. A4LI works with healthcare leaders and experts in the geroscience and regenerative medicine fields to ensure the initiatives we pursue are the right steps to accomplish A4LI's mission. Ultimately, we would like to see governments around the world prioritize keeping their citizens in excellent health for much longer.
