

January 8, 2025

WASHINGTON, D.C. – The Alliance for Longevity Initiatives (A4LI) is excited to announce its 2nd Annual D.C. Summit, taking place **April 28–30, 2025**, in Washington, D.C. This event will once again convene policymakers, scientists, industry leaders, and advocates to drive legislative and policy advancements in the field of longevity science.

Building on the success of last year’s inaugural Fly-In, the 2025 gathering will be a hub for fostering collaboration between those shaping the future of longevity biotechnology and the policymakers who can help make that future a reality. A4LI remains committed to ensuring that advancements in aging research lead to real-world impact through actionable policy and equitable access to innovative therapies.

“We are thrilled to build on the momentum of last year’s event.” said **Dylan Livingston**, Founder and President of A4LI. “With the new Administration signaling support for longevity-focused policies and initiatives, we’re optimistic about major legislative breakthroughs in 2025 and 2026. This year, our goal is to lay the groundwork for those breakthroughs, using our D.C. Summit as the cornerstone. Our industry’s advocacy work can pave the way for transformative policies that prioritize more impactful, wide-reaching therapeutic development targeting aging, extend healthy lifespans, and ensure equitable access to life-enhancing therapies for all.”

The Summit empowers attendees to engage with policymakers and shape a future where breakthroughs in longevity biotechnology translate into tangible benefits for all. For more details and information on how to register, please visit: <https://a4li.org/dc-fly-in-2025>.
